Wells Cargo has been custom manufacturing Fiber Optic Splicing trailers to the highest industry standards for over 25 years. Many utility, telephone, and cable companies have entire fleets of Wells Cargo trailers. These highly specialized trailers can serve as mobile laboratories for fiber optic installation/maintenance or any number of other outside plant operations. Your technicians will achieve optimal productivity in the full climate controlled setting with generous work top areas and convenient cabinet storage. Steel structured durability, LED Exterior Lighting, and a comprehensive 6-year warranty program are only a few reasons why Wells Cargo is a smart long-term investment.
